Tell Me More!

Q

What is your new pharmacy program?
How do I benefit?

A

You now have access to 1,000+ generic maintenance medications for FREE when you activate your account with our pharmacy partner!

Creating Your Account

Q

How do I activate my pharmacy benefit account?

A

Check your inbox for a message from "YourBenefitRX." Find the "Activate Now" button and create your account. If you're experiencing difficulty finding this message or creating an account, reach out to our pharmacy partner at 888-770-4009.

Cost & Payment

Q

What's included? Are there hidden fees?

A

This is a FREE benefit to you as our valued patient! Each year, you can get six (6) free shipments (multiple meds can be sent in each shipment). If more than six shipments are needed, there is a \$7.99 charge per additional shipment. *Our pharmacy partner will send you a message if a charge is required - you will never be charged without first confirming you accept the shipment.*

Included Medications

Q

How do I know if my medication is free?

A

You can view a list of Included medications at smartypantsmedicine.com or by scanning this QR code:

Other Medications

Q What if my prescription isn't included in the list of free medications? Do I still benefit?

A We've got you covered! Our pharmacy partner will contact you with cash-pay pricing and verify that you want the medication before charging you. **You may also use the discount card** (located in your online account) for meds that aren't included in the free program. Just print the card or save it on your phone to show at your local retail pharmacy.

Switching to Our Pharmacy Partner

Q How do I get my first prescription sent, or transfer my existing prescriptions?

A Once you've activated your online account, email your provider to request which medications you'd like sent to our pharmacy partner. The pharmacy will call or email to confirm your order. It takes about 2-3 weeks to process, send, and receive your prescriptions the first time.

Prescription Refills

Q Will my prescription refill automatically?

A Our pharmacy partner does not automatically refill prescriptions. They will reach out to you (by text or email) about 10 days before your refill is due. You can also log into your member portal to request a refill or call the pharmacy at 888-770-4009.

Household Account

Q I see my family member's name listed when I created my account. Do they need to create their own account, or are we good to go?

A Once the primary member is registered and has activated their account, children under the age of 18 are good to go. However, a spouse and/or an adult child will need to create their own account.

Questions? Reach out to our pharmacy partner at 888-770-4009.

How do I activate my account?

Here are the steps to take to activate your account with our pharmacy partner, Revive/Manifest Rx. You will probably receive an email from them (YourBenefitRx), but it often ends up in people's spam/junk folder, so here is a more direct way to set up your account.

To activate your pharmacy account:

1) Click on the following link:

<https://member.myrevive.health/registration-search>

2) You will see a question toward the bottom of the page that says "Not yet registered?" Click on the link which follows (it will say "Register now").

3) This will lead you to a page that says "Enrollment Code." Copy and paste this code into that box: **oS5CqWksY7**

4) You will then proceed to enter your first and last name, date of birth, and "member identifier" (which is your email address).

After submitting this information, follow any other prompts the site gives you, and your account will be activated!
